## PROFILE SUMMARY

Final-year B.Tech Artificial Intelligence student with strong foundations in Data Science, Data Analytics, Machine Learning, and Python development. Hands-on experience through an ongoing Data Science & Analytics Internship and multiple industry-recognized simulations. Skilled in transforming data into actionable insights using Python, SQL, Power BI, Tableau, and applying machine learning and deep learning models for real-world problems. Proactive learner with strong analytical thinking, problem-solving ability, and a passion for AI-driven solutions.

## EDUCATION

Bachelor of Technology (B.Tech) – Artificial Intelligence
G.H. Raisoni Institute of Engineering and Business Management, Jalgaon
2022 – 2026

Higher Secondary Certificate (HSC)
A.S.C College, Chopda
2022

## SKILLS

- Programming & Tools: Python, SQL, NumPy, Pandas, Matplotlib, Seaborn, TensorFlow, Keras, Power BI, Tableau, Excel, PowerPoint
- Data Science & AI: Data Cleaning, Data Visualization, Exploratory Data Analysis (EDA), Machine Learning Basics, Deep Learning, LSTM, Model Evaluation
- Databases: MySQL, Oracle SQL
- Other Skills: Analytical Thinking, Problem Solving, Communication, Team Collaboration, Presentation & Reporting.

## LANGUAGES

English | Hindi | Marathi

## INTERNSHIP EXPERIENCE

Data Analytics & Data Science Intern
NexGen Analytix, Pune
Nov 2025 – Jun 2026 (Ongoing)

- Working on real-world data analytics and data science projects under the Project Innovation Lab.
- Performing data collection, cleaning, preprocessing, and exploratory analysis on structured datasets.
- Creating interactive dashboards and reports using Power BI and Excel to support business decision-making.
- Applying Python and SQL for data manipulation, querying, and analysis.
- Collaborating with mentors and team members to understand end-to-end data workflows and industry best practices.

## CERTIFICATIONS & TRAINING

- Advanced Certification in Data Science & Analytics – E&ICT Academy IIT Guwahati (2025–2026)
- Oracle Certified Associate – Oracle (Oct 2025)
- GenAI Powered Data Analytics Job Simulation – Tata (Forage)
- Data Analytics & Visualization Job Simulations – Deloitte, Tata (Forage)
- Software Engineering Job Simulation – JPMorgan Chase & Co. (Forage)

## PROJECTS

- Stock Market Prediction Using LSTM | 2025
- Developed a deep learning-based stock price prediction model using historical market data.
- Implemented LSTM neural networks with Python, TensorFlow, and Keras.
- Performed data preprocessing, feature scaling, and sequence generation.
- Visualized predicted vs actual trends and evaluated model performance using real datasets.
